Hybrid Plus Airstract Terminal

Provide hybrid ventilation by means of Passivent Hybrid Plus Airstract terminals.

Passivent Hybrid Plus Airstract terminals appraised under BS EN ISO 9001. Terminal cladding and louvres manufactured from high-impact ABS with a single integral low energy fan and controllable inner shaft to enable mixing of air, night cooling and passive ventilation, connected to a sub base unit of external grade plywood from renewable forests. Resistant to wind loads up to 51m/s via independent test, fitted with 4mm insect screen. Louvres patented double-bank to achieve 100% rain rejection, class A effectiveness. Dimension 1250 x 1250mm. Colour and texture ... to match roof covering of... tiles/slates/sheeting*. Motorised base damper providing thermal insulation U-value 1.6W/m²K when closed and with white internal cover grille. Controlled by Passivent iC8000 intelligent controller.

Ventilators designed and manufactured under BS EN ISO 9001, and supplied by Passivent, North Frith Oasts, Ashes Lane, Hadlow, Kent TN11 9QU Tel: 01732 850770, Fax: 01732 850949, Email: projects@passivent.com (and installed by an approved installer).
